

ACT/SAT/AP Test Prep Options

Berkley High School does not endorse any specific test preparation service. The below list was compiled after surveying current or former students upon graduation regarding their ACT/SAT preparation.

There is a cost associated with any tutoring service and we understand it may not be financially possible for all students and families. Remember, ACT/SAT preparation materials and practice tests are readily available online by visiting www.actstudent.org or www.collegeboard.org. In addition, libraries and book stores have various texts to help students practice and prepare for college entrance exams.
